0. Harsh backlight

1. Top box slides down to touch bottom box (in Big Box). Shapes in top box recede into back. Top left boxes slide down, bottom left out, left hexagon up. These shapes also recede.

2. All shapes that had moved go back to original spots. Planks w/ triangle cut recede and move back in quick sequence. Ellipse + cylinder follow. Bottom 2 boxes move right, their shapes recede.

3. All shapes that had moved go back. Right boxes move up, bottom right hexagon right, top right hexagon down. Other shapes recede.

4. As it repeats, pieces start flying off until it fades to black.
