A flower is shown in a dark forest clearing; a spotlight emphasizes the flower.
A bug flies in from OSL, the camera zooms in to follow the bug as it lands on the flower.
The bug lands on the flower and moves around; camera is stationary.
A hand comes in from OSL and picks up the flower, and the bug. The camera follows the movement upward.
A face is now seen behind the bug and flower, it’s scowling at the bug.
View cuts out to see the whole creature as it flicks the bug off the flower and smiles.
